

如何判斷作業系統是否啟動

點選開始\控制台\系統及安全性\系統

點選立即啓用

The screenshot shows a Windows 7 desktop with the 'Windows 啟用' (Windows Activation) window open. The window prompts the user to activate Windows within 30 days to use all features. It offers two options: '立即線上啟用 Windows(A)' (Activate Windows online now) and '稍後詢問我(L)' (Ask me later). Below these are links for '什麼是啟用?' (What is activation?) and '閱讀線上隱私權聲明' (Read the online privacy statement). A '取消' (Cancel) button is at the bottom right of the activation window.

The background shows the Windows 7 desktop with the '控制面板' (Control Panel) window open to '系統' (System). The left sidebar contains links to '控制台首頁' (Control Panel Home), '裝置管理員' (Device Manager), '遠端設定' (RemoteApp and Desktop Connections), '系統保護' (System Protection), and '維護系統設定' (Maintenance Settings).

The main content area of the Control Panel window is titled '檢視電腦的基本資訊' (View basic system information). It displays the following information:
